

*Exciting news for you: Here, you will be able to meet across many unexpected events.*

*Suzhou, one of the most popular destinations in China is now inviting you to experience its unique destination, Suzhou Industrial Park!*

## Are you looking for a perfect weekend getaway?!

Suzhou Industrial Park (SIP) is a cooperative project of priority between Chinese and Singaporean governments and saw its debut in February 1994 as certified by the State Council of PRC. The location is an hour drive-away from Shanghai via Shanghai - Nanjing Expressway and two hours' ride to Nanjing, the capital of Jiangsu Province.

If you have seen many historic sites of Suzhou, perhaps visiting Suzhou Industrial Park is another option for you to make your Suzhou trip more valuable. The modernized industrial park is surrounded by Jinji Lake where it is full of beautiful parks, residential areas and business areas. You will be able to find a vast range of shopping, entertainment and cultural attractions, for example, Grand Promenade, Marina Cove and Arts and Entertainment Village. Also, Cityside Harbor Plaza features with bumper boats, a large wading pool and large inflatable plastic wheels which is a self propelled and a hamster style outfit.

When the sun is set, you can conclude your journey by a musical fountain show. The fountain show is filled with lasers and pyrotechnics at Rainbow Walk. Exotic dish serving restaurants and the view from its balcony is a value added to your trip.
